

Invitation to Disaster Risk Management Workshop

Dear Sir, Madam,

We cordially invite you to take part in the Disaster Risk Management Workshop, organized by Eurisy together with the European Union Agency for the Space Programme (EUSPA) under the auspices of the Hungarian Ministry of Foreign Affairs and Trade, Department for Space Policy and Space activities.

The event ***Satellite-based Services for Disaster Risk Management*** is part of a series of national workshops to discuss with users and national stakeholders the challenges, the benefits and the future needs in the use of satellite-based services. It is designed to create a common understanding among national and regional stakeholders of what satellite-based service can bring during the different phases of disaster risk management. Furthermore, this workshop aims at facilitating the use of such services from a national to a European level.

The workshop will take place in Budapest on **18th July 2023, at the National University of Public Service (location: 1083 Budapest, Ludovika tér 2.), from 14:00 to 18:00 CET.**

Satellite-based Services for Disaster Risk Management

18th July 2023
14:00 - 18:00 CET
National University of Public Service
Budapest, Hungary

EUSPA European Union Agency for the Space Programme
eurisy ACTING COLLECTIVELY TO BRIDGE SPACE AND SOCIETY

Hungarian Ministry of Foreign Affairs and Trade
Department for Space Policy and Space Activities

MINISTRY OF FOREIGN AFFAIRS AND TRADE OF HUNGARY

The purpose of this workshop is, on one hand, to raise awareness on the existing and operational satellite-based services, especially to explain how they can be integrated into daily workflows and translated into actionable information. On the other hand, the workshop will develop a roadmap to smoothen the integration path of satellite-based services by providing decision-makers and EU institutions with feedback on the obstacles that users commonly face throughout this process.

To know more about the workshop, please visit our [official website](#).

Registrations are free of charge and open until 17/07/2023 at midnight local time. Do not miss this opportunity to make an impact!

[REGISTER NOW](#)

If you are an early adopter, user, representative of a relevant public authority or academia, you are invited to take the survey below to tell us about the challenges and benefits you experience from the integration and use of satellite-based applications, as well as to share your most urgent needs.

[TAKE THE SURVEY](#)

We believe that together, through common dialogue and discussion, we can create synergies to better reflect on the issues of usage of space-derived data and its seamless integration into daily workflows. Your inputs, feedback and experiences will be an invaluable support for making this event a successful and fruitful endeavour.

We look forward to meeting you and hearing your voice.

Sincerely,
Organising team
